

## 基本資訊 Basic Information

## SUNWAY Tile Mount Cutting Machine 新和薄磚扣件專用角磨機 (SW-TMCM)

SUNWAY Tile Mount Cutting Machine(SW-TMCM) is a device for making incisions over the tiles or slim stones to co-operate with the installation of SUNWAY Tile Mount.

### Features :

- Limits of several important dimensions can be set and adjusted, to standardize all the incisions on the tiles or thin stones
- The workmanship can be perfectly secured
- Machine base is fully made of metal to ensure workers safety during the process of making incision
- Enable to co-operate with cordless angle grinders, working flexibility can be enhanced

## 主要組件 Main Components

### SW-TMCM Machine Base :

- Designed and manufactured by SUNWAY, specific to the installation of SUNWAY Tile Mount
- Made of stainless steel, rigid and durable

### Angle Grinder :

- Customers can choose various brands, models of angle grinders
- The angle grinder have to be suitable for cutting on tiles or thin stones
- Power above 900W is preferable

### Diamond Disc :

- Customers can choose various brands, models of diamond disc
- The diamond disc have to be suitable for cutting on tiles or thin stones
- Recommended size is Ø110x20x1.8mm

Special Features

SUNWAY Tile Mount Cutting Machine  
新和薄磚扣件專用角磨機 (SW-TMCM)

1. Limit A

To adjust the cutting depth

2. Limit B

To adjust the edge distance of incision

4. Metallic Handle

Hold the handle tightly to stabilize the machine during the cutting procedure

5. Limit C

To adjust so as to clip and fix the panels of different thickness

6. Plastic Grab

To make it more portable when workers move around the construction sites

3. Depth Mark

Pair up with limit A to adjust the cutting depth

7. Central Point Mark

To correspond with the central point of incision
